

Intermediate Roadcraft Course - ACT

The Intermediate Roadcraft Course has been designed to fine tune the skills learned in the Learner and Provisional courses. The course gives riders the opportunity to further enhance and practice their skills at realistic road speeds encountered in everyday riding. The course is also suitable for riders returning after a break from motorcycling looking to brush-up on their skills and is also a great first step in our track-based course programme.

The course is conducted on a closed driver training circuit and on public streets and is the ideal introduction to one of Stay Upright's Advanced Courses

6 HOURS PRACTICAL DAY WITH PLENTY OF PRACTICE TIME

The Intermediate Roadcraft course gives you the answers. Over 6 hours we cover areas that are not covered in Learner or Provisional Licence training, including higher speed cornering, braking, counter-steering, and manoeuvring techniques. The road ride component enables you ride behind the instructor to observe first hand defensive riding strategies. Your instructor will then follow you and offer personalised feedback. This approach is invaluable in making your riding smoother, safer and more enjoyable..

- Australia's most skilled and experienced Instructors
- Personal tuition assured – lead and follow with Instructors – one on one feedback
- We explain, demonstrate and evaluate
- Ride at your own pace
- All motorcycle types are welcome but must be road registered
- 6:1 Student Instructor Ratio
- Certificate issued at completion of course
- Quality Assured – by Australia's Premier Rider Training Company
- Help take the "fright" out of your riding
- Plenty of time for general discussion with question and answer time for your particular problem areas
- Best of all, the cost is only **\$230.00**
- Hire Bikes Available - **\$150**
